## SONORA SIFTINGS.

Collection of Happenings in the State  
Over the Line.

Mr. J. D. Fresh of Hermosillo, started on Sunday from Minas Prietas, to go out to the La Pillardito mine, in the Trinidad region, between Concentracin and Trinidad.

Mr. F. S. Cranz has bought the mill of the Yolo Mining Co. in the Bavacori region of the Sahuaripa district, and has moved it over to his own property some miles distant.

Saturday last Mr. Raul Montijo, the commission merchant at Torres, shipped to El Paso, from the mine of Carmen Ortega, in the Sahuaripa district, 220 sacks of rich ore which weighed 29,222 kilos—about thirty-two tons.

"La Bufa," the silver mine beyond La Barranca, owned by several Prietas and La Colorada gentlemen, continues to produce abundantly. The dividend to stockholders in November first was fifteen hundred dollars per share.

The Sonora Legal Consulting Bureau is the only EFFICIENT professional office assisting, FREE OF CHARGES, the foreign investors in Mexican enterprises. Its address is in the professional card column of this paper.

Messrs. Meeker and Cronkhite, whose working bond on the Dewey mine, near Willard station, was mentioned in these columns last week, have taken hold in the right way, and are vigorously pushing development of the property.

Mr. C. H. Jones of Springfield, Illinois, who is associated with Colonel W. W. Morrow in his mining operations, arrived at La Colorada Sunday, en route to San Jose de Pimas to look over the property with a view to putting up a reduction plant to treat the ores.

Sunday Mr. Gordon Seymour, secretary of the Torres & Prietas railway, returned from a visit to Denver, where he went to purchase a new locomotive, which was shipped from Denver last Friday, and will very shortly arrive at Torres and be put into service.

The Kansas City and Sonora Mining Co., which owns the Ramona mine at Gabilan, in the Ures district, and is putting up a ten-stamp mill, is progressing with its work satisfactorily, and will have the plant ready for operation within a very few weeks. Yesterday the last carload of the machinery passed Nogales en route.

The Occidental Exploration Development Co., consisting of a number of well known employees of the mining companies operating at Minas Prietas and La Colorada, with some of the business men of the two camps, whose operations have been heretofore noted in these columns, are developing a big copper property, over in the "La Dura" region, which gives promise of being one of the largest and best properties of the kind in Sonora. They have eleven big veins which are well defined through the country over a distance of four or five miles. A shaft is down sixty feet upon one of the ledges, in good shipping ore all the way. Ore which will bear transportation from that remote

and almost inaccessible region is very valuable.

Messrs. Thos. Bentley, W. Rawson, J. G. Kendal, and several others of Minas Prietas, are developing a very promising copper property on the Sonora river, beyond the "La Bufa" camp, which they believe is one of the coming bonanzas of that very rich mineral region. They have a tremendous ledge which can be traced a long distance, and surface ore runs fifteen per cent cop. er.

The "Espiritu" is the name of a rich "antigua" silver mine, in the Alamos district, on the other side of the Yaqui river, about fifty miles from Cocorit, which has been denounced by Mr. Riggs, Dr. R. J. Howitt, J. H. Miller, Archie McKenzie and others at La Colorada and Minas Prietas. The owners are arranging to put up a hoist, pumping machinery, etc., and to work it on an extensive scale.

Several Americans who are operating near the seat of the Yaqui, and have been recently in Hermosillo and Minas Prietas, have reported that the Yaquis are making no trouble for Americans, Mexicans or anyone else but the soldiers sent against them. Of course there is a region they claim which they will allow no one to enter; but outside of that region traffic and travel are perfectly safe. The Yaquis state that Remley and Miller, the two Americans who were killed at the outbreak of hostilities, courted their fate. They were warned not to proceed, but insisted in doing so. After they started the Yaquis intercepted them on the road and ordered them to return. They refused, opened fire, wounded an Indian and were killed.

La Grippe, with its after effects annually destroys thousands of people. It may be quickly cured by One Minute Cough Cure, the only remedy that produces immediate results in coughs, colds, croup, bronchitis, pneumonia and throat and lung troubles. It will prevent consumption. L. W. Mix & Co.

Chamberlain's Pain Balm Cures Others  
Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with best of satisfaction. She has used only one bottle and her shoulder is almost well.—Adolph L. Millett, Manchester, N. H. For sale by L. W. Mix & Co., Druggists.
